'Minute Bodies: The Intimate World of F. Percy Smith', directed by Stuart Staples of tindersticks, was first screened at the 60th BFI London Film Festival in October 2016. It is a meditative and immersive film tribute to the astonishing work and achievements of the early twentieth century naturalist, inventor and pioneering filmmaker F. Percy Smith.

'Minute bodies' is an interpretative edit that combines Smith's original footage with a new contemporary score by tindersticks, with Thomas Belhom and Christine Ott, to create a hypnotic, alien yet familiar dreamscape that connects us to the sense of wonder Smith must have felt as he peered through his own lenses to see these micro-worlds for the first time.

With tindersticks at its heart, the music was created from a loose collective of invited musicians: Thomas Belhom (percussion), Christine Ott (Ondes Martenot and piano), David Coulter (Musical saw and Nose flute) and Julian Siegel (Saxophone) and recorded in the bands studio in France.

Today the band announced the release of the film and musical score to be released on June 9th 2017 on limited edition LP & DVD as well as CD & DVD PREORDER <https://tindersticks.bandcamp.com/>
