In October of 2017 Boy Harsher released the four-track EP, 'Country Girl'. It was released by Ascetic House as a one-time vinyl pressing of 600 copies, which sold out in a month. Boy Harsher have announced a deluxe reissue of 'Country Girl', entitled 'Country Girl Uncut', which includes four previously unreleased tracks for a total of eight songs.

'Country Girl' marked a distinct sonic shift for Boy Harsher; the EP was the first group of songs written in their new home in rural Massachusetts. The novel isolation of the Northeast gave Jae and Augustus plenty of time to write and explore new sounds, while reminiscing about their time in the South. The move also put the band within driving distance of New York City, which was another important factor in their progression. The band attributes partial influence on 'Country Girl EP' to their frequent shows in Manhattan and Brooklyn; playing parties like Nothing Changes and Lost Enterprises gave them access to a vibrant new music community.

From industrial to noise table techno, Boy Harsher was enamoured by the raw sound and fearless attitude of the artists and crowds alike. The sound of 'Country Girl' is defined by these two worlds that the band existed within - their quiet, modest life in small town Massachusetts and their speed-fuelled weekends in New York. 'Country Girl Uncut' includes the complete track list of songs from this time period. The album is out on the band's imprint "Nude Club" on digital, cd, tape, and vinyl formats.
