THIS WILL DESTROY YOU (USA)

Album: «Another Language» (Suicide Squeeze Records, release: 12.09.2014)

TWDY's fourth full length LP, marks their euphonious return from a prolonged vacuous dark period that threatened to break both the band and the members themselves. Rather than be stifled by their experience TWDY were atomized and subsequently made anew, emerging with a revived energy and reinforced sense of solidarity.

Since 2004, This Will Destroy You has been forging some of the world's most brutal, dynamic, and precariously visceral instrumental rock. In addition to a vigorous tour schedule, their celebrated discography and critically renowned soundtrack work for feature films and documentaries have earned them a sizable and fervent international following.

«Another Language» captures the band at its most potent, honed, and utterly powerful form yet, displaying an edified unity and graduated sense of song-writing, tonal complexity, and studio prowess.

TWDY's new found clarity of vision would come after a state of near dissolution that ensued after the massive success of their 2006 debut «Young Mountain» and 2008's eponymous follow up. TWDY's spirits were lifted when both independent filmmakers and Hollywood began to eye their discography for prominent placement in several critically acclaimed films, including the Oscar-winning «Moneyball».

An earthy realism can be heard throughout «Another Language»'s nine tracks, as if all of its sound sources have been so heavily disguised under layers signal manipulation that their original form is weathered beyond recognition.

Forced to redefine themselves as individuals, artists, and as a unit, TWDY's «Another Language» exudes a corporeal sense of the formidable journey, which was overcome in order to arrive at their newly galvanized state of confidence and artistry.
